Adept Android Developer with a track record of enhancing applications for Dermato.AI. Excelled in debugging and collaborative development, showcasing mastery in Android Studio and Kotlin. Known for creating user-centric UI designs aligned with Material Design principles. Brings a blend of technical proficiency in Java and effective teamwork skills, contributing significantly to project successes. In addition to Android development, I am actively building skills in backend development, including familiarity with server-side technologies and APIs, and am eager to apply this knowledge in full-stack development projects.

EXPERIENCE

FEB 2025 – APR 2025

Internship Project Base | Sains and Technology Faculty | UIN Ar-raniry Banda Aceh

During my internship at the faculty of Science and Technology, UIN Ar-raniry, I led and developed a web-based profile and news system. As the project leader, I was responsible for coordinating a small development team, planning milestones, choose the applicable tech stack, and ensuring timely delivery. In my role as backend dev, I designed and implemented RESTful APIs, handled database architecture, and integrated admin functionalities to manage news content and profile information.

NOV 2024 – DEC 2024

Dermato.AI | Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka | Capstone Project

As an Android Developer at Dermato.AI, I debugged application code to identify and resolve system errors, collaborated with fellow developers to enhance software module efficiency, and developed user interfaces in line with Material Design guidelines to ensure an intuitive user experience.

MAY 2024 – JUN 2024

Kostku | UIN Ar-Raniry University - Banda Aceh, Aceh | Simulated Company

Conducted user interviews and qualitative data analysis, developed personas and journey maps, provided strategic UX advice, documented research findings, and advised on accessibility issues considering disabilities and cultural differences.

EDUCATION

2022 – Present

Ar-Raniry State Islamic University Banda Aceh Bachelor of Science Information Technology

GPA : 3.6

OCT 2024 – JAN 2024

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

Capstone: A (85)

LICENSE

Dev Certified for Android (DCA) | dev.id/certificate/verify/OXWKR3PVDG | Dev.id

I successfully earned a certificate in Android Development, demonstrating strong skills in building user-focused mobile applications. This certification highlights my proficiency in Kotlin, Java, and Android Studio, as well as my ability to design modern UIs following Material Design principles.

SKILLS

Spring boot (Java)	NestJs (Typescript)	NuxtJs (Typescript)
Vue	Android Studio (Kotlin)	Jetpack Compose (Kotlin)
Docker	Jetbrain IDE	GIT
MYSQL	PostgreSql	MongoDB
