PROFILE

Backend-focused software engineer and Android developer graduating Cum Laude (GPA 3.78/4.00) in Information Technology from UIN Ar-Raniry Banda Aceh. Experienced in leading small development teams, designing RESTful APIs and database architecture, and building Android applications with Kotlin and Jetpack Compose aligned with Material Design principles. Comfortable across the stack with Spring Boot, NestJS, Nuxt/Vue, and SQL/NoSQL databases, and BNSP-certified as a Junior Web Developer. Thrives in collaborative, fast-paced teams and is eager to grow into full-stack and cloud-native development.

EXPERIENCE

Android Developer — Smart City Mini Hackathon (KI-PTKIN 2025)

Jul 2025

Faculty of Science and Technology, UIN Raden Fatah Palembang, in collaboration with FORDEK PTKIN

- Won 3rd place in the Smart City Solution sub-theme (“Tech for Ummah”) at the national KI-PTKIN Scientific Competition.
- Built the Android client (“Eatzy”) as part of a cross-institution team delivering a smart-city community service solution under time pressure.

Project Leader & Backend Engineer — Faculty of Science and Technology, UIN Ar-Raniry

Feb – Apr 2025

Internship / Project-Based Learning, Banda Aceh

- Led and coordinated a small development team to design and build a web-based faculty profile and news system, planning milestones and choosing the tech stack.
- Designed and implemented RESTful APIs and the database architecture, and built admin functionality for managing news content and profile information.

Android Developer — Dermato.AI (Bangkit Academy Capstone)

Nov – Dec 2024

Bangkit Academy led by Google, Tokopedia, Gojek & Traveloka — Capstone team project

- Developed the Android front-end for an AI-powered skin-condition detection app, integrating it with machine learning models and backend services.
- Debugged application code to resolve system errors and collaborated with fellow developers to improve module efficiency.
- Built UI in line with Material Design guidelines to deliver an intuitive, accessible user experience.

Team Leader, App Design — “Kost-Ku” (Simulated Company)

May – Jun 2024

UIN Ar-Raniry Banda Aceh

- Led a simulated-company team designing a Figma-based boarding-house discovery app for students in Banda Aceh and Aceh Besar.
- Conducted user interviews and qualitative analysis, built personas and journey maps, and advised on accessibility across disabilities and cultural contexts.

EDUCATION

B.Sc. in Information Technology (S.Kom) — Universitas Islam Negeri Ar-Raniry Banda Aceh

2022 – 2026

Faculty of Science and Technology | GPA 3.78/4.00 — Cum Laude | Graduated May 2026

- Thesis: “Implementation of gRPC as a Communication Protocol for an Android-Based Mobile Application for Early Skin Disease Detection.”

Bangkit Academy — led by Google, Tokopedia, Gojek & Traveloka

Oct 2024 – Jan 2025

Mobile Development Learning Path | Capstone grade: A (85)

CERTIFICATIONS

- BNSP Certificate of Competence — Junior Web Developer (Pengembang Web Pratama), Web Development track, Reg. No. TIK 1565 39929 2025, issued by Lembaga Sertifikasi Profesi Teknologi Digital, Yogyakarta, Sep 2025 (valid 3 years).
- Dev Certified for Android (DCA) — Dev.id, verified proficiency in Kotlin, Java, Android Studio, and Material Design UI.

SKILLS

Backend: Spring Boot (Java), NestJS (TypeScript) | Frontend: Nuxt.js (TypeScript), Vue

Mobile: Android Studio, Kotlin, Jetpack Compose, Java, Material Design

Databases & Tools: MySQL, PostgreSQL, MongoDB, Docker, Git, JetBrains IDEs
